#Biofuels #Clean Industrial Deal

Table of Contents ≡

INITIATIVE STATUS:

27.02.2026 - published in the Official Gazette part I no. 157.

The Ordinance establishes the legal framework for the production, injection, transport and marketing of biomethane in natural gas networks, by amending Law no. 123/2012 and introducing explicit support and market integration mechanisms. The regulatory act is based both on European obligations regarding renewable gases and the reduction of methane emissions, and on economic arguments related to the competitiveness of the industry, ETS costs and the need to stimulate investments in a context of...

National news

Report on pesticide residue control in 2024: The National Sanitary Veterinary and Food Safety Authority published the results of the report on pesticide residue control in 2024. In 2024, a total of 4927 samples were taken to verify the compliance of pesticide residues with the applicable maximum residue limit (MRL) in various crops. Of these, 4675 samples were taken according to the objective sampling strategy, 210 samples were taken according to the suspicion sampling strategy, and 42 samples were taken according to the selective sampling strategy. A total of 1498 samples of fruits and their primary derivatives, 2754 samples of garden vegetables and their primary derivatives, 141 samples of cereals and cereal-based products, 42 samples of baby food, and 56 samples of animal products were taken. Of the total number of 4927 samples of fruits, vegetables, cereals, and processed products (including baby food), products of animal origin, 3763 were produced in Romania, 4031 samples were produced in the EU, and 896 samples were produced outside the EU.

Information campaign for receiving Payment Requests for NSP interventions started: The Payments and Intervention Agency for Agriculture launched the national information campaign regarding the submission of Payment Applications for interventions related to the plant and livestock sector within the National Strategic Plan on March 5, and assured farmers of full support for accessing the interventions managed in the 2026 Campaign.

European news

Report on the evaluation of emergency authorisations of fungicides and bactericides: The European Food Safety Authority published a report that provides an overview of the virtual workshop held on the 31st of October 2025 as part of the GP/EFSA/PLANTS/2023/02 project titled ‘Support to urgent authorisations on Plant Health and Pesticides’, aimed to introduce the draft protocol for fungicides and bactericides and to solicit feedback from experts regarding its provisions and its potential to harmonize emergency authorisation procedures across the EU.

Documents published in the Official Journal: The following decisions were published in the Official Journal of the European Union:

- Commission Implementing Decision (EU) 2026/485 of 27 February 2026 renewing the authorisation for the placing on the market of products containing, consisting of or produced from genetically modified maize NK603
- Commission Implementing Decision (EU) 2026/457 of 27 February 2026 authorising the placing on the market of food, food ingredients and feed produced from genetically modified sugar beet KWS20-1.
